**RESPONSE TO RESTRICTION REQUIREMENT**Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

This is in response to the Restriction Requirement mailed September 9, 2002. The Examiner's courtesy in granting a telephone interview on September 27, 2002 is gratefully acknowledged. During the interview, the claims were discussed and it was agreed that, in order to reduce the number of Groups to which restriction will be required, Applicants would amend the claims in response to the restriction requirement to reduce the number of independent claims or explain why concurrent examination of some or all of the Groups identified in the restriction requirement would not present an additional burden to examination.

**REMARKS**

The Examiner has restricted the application into six separate inventions: Group I, claims 1-28 and 56-64 drawn to a method of determining a biological sample expression pattern; Group II, claims 29-35, drawn to a method of comparing biological phenotypes; Group III, claims 36-48, drawn to a method and kit of reducing the complexity of a biological sample; Group IV, claims 49-55, drawn to a peptoid; Group V, claims 65-70, drawn to a method of processing a biological sample; and Group VI, claims 71-73, drawn to another method of processing a biological sample.
